

## March 2022 IRG – The Bridge Hub South Brighton

IRG Funding: \$1.1m | Total Project Spend: \$1.4m

The Bridge Hub South Brighton was originally an abandoned and earthquake-damaged Baptist church located on Bridge Street, South Brighton Christchurch. Over the last couple of years it has been converted into a community-owned hub for South Brighton residents, who lost most of their local gathering places following the 2011 earthquakes.

The development includes:

- A community hall
- Wellness centre
- Café, courtyard and co-working space
- Community information centre
- Performance venue

The Bridge Hub's mission is to be a vibrant hub bringing together community spirit and wellbeing by providing space for activities, kai, conversation, learning and healing.
